

Update to Louisville Bridge Club Reopening Monday, June 14

After reading all the members' feedback, the conditions for opening have been modified by LBC Reopening Committee. The Bridge Center will open for in person play on **Monday, June 14**, using the following guidelines:

- **Vaccinations required to play**
- Proof of vaccinations can be emailed to (Lbcvaccine@gmail.com), presented at the club, or if your vaccination card not available, fill out a form at the club (location & dates, phone#, signature)
- A master list will be kept by the LBC
- A volunteer will be at each game early to check the vaccination status of the players
- Wearing a mask is strongly suggested but not mandatory. If a tablemate requests you wear a mask, it is expected you honor the request by putting on your mask. Failure to wear a mask for that round will result in a sit out and an *average minus* score for the round
- E-W will carry a bidding box from table-to-table. If a personal bidding box is desired, it will be available for purchase.
- Hand sanitizer and wipes will be available
- Snacks still allowed (no one forces you to partake)
- In person play will be from Monday through Friday at all regularly scheduled times
- The Club will run two virtual games on the weekend and the Bridge Center will be closed on the weekends
- In person play will be at 60% capacity, approximately 30 tables

Please watch for further emails with game times and other info as we get closer to June.
